<u>Vaccine</u>	<u>Vaccine Interval</u>
DHPP-Parvo (5 in 1)	Booster given at 1 year, then every 3 years <ul style="list-style-type: none"><li>• If history is unknown, then 2 doses given 4 weeks apart</li></ul>
Rabies	Booster given at 1 year, then every 3 years <ul style="list-style-type: none"><li>• If history is unknown, then single dose w/booster at 1 yr.</li></ul>
Lepto (4 serovar)	Single dose given yearly <ul style="list-style-type: none"><li>• Best before rainy season</li><li>• If it's the first time the vaccine has been given, then 2 doses given 4 weeks apart is recommended</li></ul>
Lyme	Single dose given yearly <ul style="list-style-type: none"><li>• If it's the first time the vaccine has been given, then 2 doses given 4 weeks apart is recommended</li></ul>
Rattlesnake	Single dose given yearly <ul style="list-style-type: none"><li>• Best given in the spring.</li><li>• If it's the first time the vaccine has been given, then 2 doses given 4 weeks apart is recommended</li></ul>
Bordetella (Kennel Cough)	Single (intranasal) dose given yearly ( <b>***required to board at NFVC</b> )
Influenza (H3N8/H3N2)	Two doses give at least 2 weeks apart, then booster annually ( <b>***required to board at NFVC</b> ) <ul style="list-style-type: none"><li>• Given to at risk dogs...exposed to boarding kennels/dog parks/dog shows/obedience school/agility classes</li></ul>

## Vaccine Risk Assessment:

**Dog's Name:** \_\_\_\_\_ **Last Name:** \_\_\_\_\_ **Date:** \_\_\_\_\_

1. Current Age: \_\_\_\_\_ Breed \_\_\_\_\_ Male/Female (circle)
2. How did you acquire ownership? (circle)
  - From a pet store
  - From a breeder
  - From an adoption agency
  - Stray or from a neighbor/friend
3. List any other localities other than the greater Auburn/Foothill area that your pet has lived: \_\_\_\_\_
4. Do you travel with your pet? Where? \_\_\_\_\_
5. Does your dog live in a household with multiple pets? Y / N (circle)
6. Is your dog exposed to: horses / livestock / fowl (circle all that apply)
7. Is your dog around children or seniors on a typical day? Y / N (circle)
8. Does anyone in your dog's environment have an impaired immune system? Y / N (circle)
9. Is your dog outdoors more that 50% of the time? Y / N (circle)
10. When outdoors, does your dog: (circle all that apply)
  - Stay in a fenced yard
  - Go on leash walks
  - Visit dog parks
  - Visit public areas
  - Stay in a neighborhood only
  - Go camping or hiking trails (where there is wildlife)
  - Go to rivers/lakes with stagnant ponds, etc.
  - Go to grooming facilities
  - Go to boarding facilities
  - Go to obedience classes/dog shows
  - Work as a therapy dog
11. Date of last / previous vaccinations, heartworm test: \_\_\_\_\_
12. Has your dog ever had a reaction to vaccines? Y / N (circle) Which one? \_\_\_\_\_  
\_\_\_\_\_
13. Other considerations: heartworm area /flea-tick risk/GI parasites/worms
